

SURVEY, REHABILITATION PLANNING & IMPLEMENTATION FOR PLANTATION

Inl Consulting (INI) was given mandate by a prominent infrastructure focused business group based in Mumbai to **survey and assess its Mango Plantation** which is located in Maharashtra. INI performed a detailed survey of the plantation and presented its report highlighting facts, existing issues, farm potential and recommendations to the client.

Based on the outcome of report, the client has given a mandate to INI for phase II which includes: Work Plan for Implementation, Budgetary Estimation, Set up of HR Systems, Set up of MIS, Monitoring & Control Systems and Continuous monitoring & management support during implementation.

- Overall, this project involves the following:
- Plantation Assessment & Survey Report
- Work Plan for Implementation
- Budgetary Estimation
- Set up of HR Systems
- Set up of MIS, Monitoring & Control Systems
- Continuous monitoring & management support during implementation
